

1 CLAIMS

2 I claim:

3 1. A system for automating a business's management of business information

4 comprising:

5 a server computer hosting a business information exchange service accessible via client

6 computers to a plurality of business information users and a plurality of customized form

7 providers, said business information exchange service further comprising

8 a first user interface comprising controls whereby a business information user

9 selects, receives, and transmits business information; and

10 a second user interface comprising controls whereby a customized form provider

11 transmits and edits business information; and

12 a database of business information;

13 whereby said business information exchange service is available via a computer network

14 to assist business information users in obtaining customized and noncustomized business

15 documents.

16

17 2. The system of claim 1, said database of business information further comprising

18 business information transmitted by said second user.

19

20 3. The system of claim 1, said first user interface further comprising:

21 a first control for providing a web page to said first user listing business information

22 available for transmission to said first user without cost;

1 a second control for providing a web page to said first user listing customized business  
2 information available for transmission to said first user for a fee; and

3 a third control for providing a web page to said first user enabling said first user to  
4 transfer business information to said server for producing a business document therefrom.

5  
6 4. A method for providing customized and noncustomized business information to  
7 remote users, comprising the steps of:

8 a) providing a web site having a first user interface comprising controls whereby a  
9 business information user selects, receives, and transmits business information, and a second  
10 user interface comprising controls whereby a customized form provider transmits and edits  
11 business information;

12 b) receiving at said web site a first business information user input indicative of a desired  
13 category of available document transfer services; and

14 c) transmitting to said business information user a desired web page enabling the transfer  
15 of business information between said web site and said business information user.  
16

17 5. The method of claim 4, wherein said web page transmitted to said business  
18 information user lists noncustomized business information available for transmission to said first  
19 user without cost.

20  
21 6. The method of claim 5, further comprising the step of:

22 d) receiving at said web site a first business information user input indicative of a desired  
23 noncustomized business information document to download from said web site without cost.

1  
2 7. The method of claim 6, further comprising the steps of:

3 e) transmitting to said business information user a web page listing document download  
4 conditions;

5 f) receiving at said web site business information user input indicative of said business  
6 information user's agreement to said conditions; and

7 g) transmitting to said business information user said desired noncustomized business  
8 information document in read only form.  
9

10 8. The method of claim 4, wherein said web page transmitted to said business  
11 information user lists customized business information available for transmission to said first  
12 user for a fee.  
13

14 9. The method of claim 8, further comprising the step of:

15 d) receiving at said web site a first business information user input indicative of a desired  
16 customized business information document to download from said web site for a fee.  
17

18 10. The method of claim 9, further comprising the steps of:

19 e) transmitting to said business information user a web page providing an outline  
20 description of said desired customized business information document;

21 f) receiving at said web site business information user input indicative of said business  
22 information user's intention to purchase said document;

1 g) transmitting to said business information user a web page listing document download  
2 conditions;

3 h) receiving at said web site business information user input indicative of said business  
4 information user's agreement to said conditions; and

5 i) transmitting to said business information user said desired customized business  
6 information document in read only form.

7

8 11. The method of claim 4, wherein said web page transmitted to said business  
9 information user lists customized business information available for generation at said web site.

10

11 12. The method of claim 11, further comprising the step of:

12 d) receiving at said web site a first business information user input indicative of a desired  
13 class of customized business information document to be generated at said web site.

14

15 13. The method of claim 12, further comprising the steps of:

16 e) transmitting to said business information user a web page requesting input of data  
17 corresponding to the selected class of customized business information document to be  
18 generated;

19 f) receiving at said web site business information user input data corresponding to said  
20 selected class; and

21 g) storing said data with an identification of said business information user for later  
22 retrieval.

23

1           14. A method for providing customized and noncustomized business information to  
2 remote users, comprising the steps of:

3           a) providing a web site having a first user interface comprising controls whereby a  
4 business information user selects, receives, and transmits business information, and a second  
5 user interface comprising controls whereby a customized form provider transmits and edits  
6 business information;

7           b) receiving at said web site a first customized form provider input indicative of a login  
8 identification specific to said customized form provider; and

9           c) transmitting to said customized form provider a web page listing a plurality of  
10 customized business information handling functions accessible by said customized form  
11 provider.  
12

13           15. The method of claim 14, wherein said customized business information handling  
14 functions comprise uploading new customized business information and editing previously  
15 stored customized business information.  
16

17           16. The method of claim 15, further comprising the steps of:

18           d) receiving at said web site customized business information from said customized form  
19 provider; and

20           e) storing said customized business information as a customized read only document  
21 with an identification of said customized form provider.  
22

23           17. The method of claim 15, further comprising the steps of:

- 1 d) transmitting to said customized form provider a previously stored customized business
- 2 information document associated with said customized form provider;
- 3 e) receiving from said customized form provider an edited version of said previously
- 4 stored customized business information document; and
- 5 f) storing said edited version of said customized business information as a customized
- 6 read only document with an identification of said customized form provider.
